Northern Border University Concludes the Mawhiba Academic Enrichment Program

Northern Border University concluded the **Mawhiba Academic Enrichment Program** for talented male and female students, organized by the University's Talent Academy in partnership with the King Abdulaziz and His Companions Foundation for Giftedness and Creativity (Mawhiba) and sponsored by **Saudi Arabian Mining Company (Ma'aden)**. The ceremony was held at the College of Science Theater in the university city of Arar.

The program, which took place from **5/1/1445 to 23/1/1445 Hijri (23-07-2023 to 10-08-2023)**, aimed to expand students' intellectual and cognitive horizons and open new avenues for their development. This was achieved by providing an enriching academic environment where students could interact with their peers in the same age group, engage in scientific activities under the supervision of experts, and showcase their creative abilities. The program also sought to build competitive human capacities both locally and globally, in partnership with the private sector, while equipping students with practical, administrative, and leadership skills within a real-world work environment. Furthermore, the program aimed to prepare creative students with the knowledge and practical skills necessary to keep pace with the ever-changing labor market.

Dr. Fawaz Al-Enzi, Director of the Talent Academy, highlighted the importance of the program in enhancing the students' practical talents and developing their leadership skills. He noted that students would receive intensive practical training in various enrichment units, including **medical and biomedical sciences, renewable energy, information security and data encryption, and chemical applications**, all supervised by a distinguished group of faculty members from the university.

This program aims to support gifted individuals in the region, empowering them to excel in their respective fields.

As part of the **Bridges Initiative**, Northern Border University organizes a **Cultural and Awareness Exhibition**.

In line with the "**Bridges**" **Initiative** launched by His Royal Highness Prince Faisal bin Khalid bin Sultan bin Abdulaziz Al Saud, Prince of the Northern Borders Region, may Allah protect him, and in recognition of the university's leadership role in providing outstanding academic services and preparing national human resources to meet development needs, while enhancing community partnership to achieve the goals of **Saudi Vision 2030**, the **Deanship of Student Affairs at Northern Border University** organized a **Cultural and Awareness Exhibition**. The event aimed to reach various segments of the local community, continuing a series of activities and events the university has organized as part of the **Bridges Initiative**.
